# Game Management

During the course of a game there will be times you will need to be able to deal with control issues and use control measures. You may have occasion to answer a player or coach's question. This should be asked in the correct manner. Please answer, however do not get to involved. This does not mean you do not talk or respond to a question. Just remember respect goes both ways. However do not answer all questions, as this will distract you from officiating.

What are control issues and measures?
